"This book explores the heart and soul connection between humans and Mother Earth. Through that intimacy, miracles of healing and expanded awareness can flourish. To heal the planet and be healed as well, we can lovingly extend our energy selves out to the mountains and rivers and intimately bond with the Earth. Gestures and vision can activate our hearts to return us to a healthy, caring relationship with the land we live on. The character and essence of some of Earth's most powerful features is explored and understood, with exercises given to connect us to those places. As we project our love and healing energy there, we help the Earth to heal from man's destruction of the planet and its atmosphere. Dozens of photographs, maps and drawings assist the process in 25 chapters that cover the Earth's more critical locations."
